# Stress Management Packages

Stress needs to be managed effectively to ensure that its impact remains positive. Equally, physical and mental health are of utmost importance, and ill health, even when not necessarily sick, can impact dramatically on your life as a whole

Sometimes underlying health problems are not diagnosed effectively because doctors don't have enough time to spend with the patient as a whole, or don't have the necessary equipment on site to ensure quick and appropriate testing. Dr André and our team of professionals are passionate about health, and revered the world over for the thorough, caring way in which we approaches every individual. His on-site laboratory is constantly expanding to ensure that we are able to offer up to date testing quickly and cost effectively.

# 7 day Holistic Detox Package

Prof David A Bender points out in an article of the British Society of Biology's journal, The Biologist, we already have an excellent system for getting rid of potentially harmful substances — it is called the human body. All we need to do, is to support the human body naturally and it will do the work it is designed to do. Even if you have put your body and mind through the abuse of modern life, it can bounce back quickly and effectively, unless there are major medical reasons preventing this.

This is what makes Hoogland so successful at providing a truly holistic detox programme. We have a comprehensive, caring medical team to ensure that there are no underlying medical factors and a wide range of supportive staff and facilities to provide the ideal environment for improved mental and physical vitality.

Detox is actually a bit of a misnomer. A toxin is a poison, and the only time we have poisons is if we get them in somehow, either through eating it or by being bitten, stung or injected with poison in another way. What we are really referring to are wastes, and sometimes an excess build-up of wastes due to poor circulation, lack of exercise, bad eating habits, constipation, excess stress or other factors. We will keep with the 'layman's term' of 'detox' as it is a term made popular by many spas and publications.

Many detox regimes include a number of therapies which are either untested, or have been proved to have more potential side effects than benefits. Please let us know if you would like copies of our research on "colonic irrigation" and why we don't offer it, as well as some of the articles on the "dangers of dietary supplements".
